Summary

Innovative and detail-oriented **Full Stack Web Developer** with over **3 years of experience** in designing, developing, and maintaining robust web and mobile applications. Highly skilled in **Laravel**, **Angular.js**, **Node.js**, and **API integrations**, with hands-on expertise in **cloud technologies (AWS, GCP)** and **containerization using Docker**. Adept at building scalable software solutions that enhance user experience, improve performance, and streamline business processes. Committed to continuous learning and keeping up to date with emerging technologies.

Technical Skills

- **Programming Languages:** PHP, JavaScript, TypeScript
- **Backend Frameworks:** Laravel, Node.js (Express)
- **Frontend Frameworks:** Angular.js, Vue.js, React
- **Database Management:** MySQL, Firebase, PostgreSQL, MongoDB
- **Version Control & CI/CD:** GitHub, GitLab, Jenkins, CI/CD pipelines
- **Cloud & Containerization:** AWS, Google Cloud Platform (GCP), Docker
- **Web Services:** RESTful APIs, SOAP, JSON, XML
- **Testing:** Unit and Automated Testing (PHPUnit, Jest)
- **UI/UX Design:** Responsive Web Design, Mobile Usability, Human-Computer Interaction

Professional Experience

Full Stack Web Developer — Galaxies Coders Limited, Nairobi, Kenya

July 2023 – Present

- Lead the design and development of full stack web and mobile applications using **Laravel**, **Node.js**, and **Angular.js**.
- Develop and maintain RESTful APIs to support both mobile and web platforms.
- Collaborate closely with clients and cross-functional teams to translate business requirements into efficient software solutions.
- Deploy and manage applications on **AWS** and **Docker** environments, ensuring system scalability and reliability.
- Implement **CI/CD pipelines** to automate testing, integration, and deployment processes.
- Optimize front-end and back-end performance, improving response times and system efficiency.
- Mentor junior developers and contribute to code reviews and architectural decisions.

Software Developer Intern — Green Bank Credit, Nairobi, Kenya

October 2024 – october2025

Full-stack Engineer Developing responsive and user-friendly websites, utilizing modern web development technologies to create seamless navigation and engaging user interfaces.

Full Stack Developer — EarthView Management Ltd, Nairobi, Kenya

January 2023 – March 2023

- Contributed to software design and development using **Laravel** and **Vue.js** frameworks.
- Participated in code reviews, feature enhancements, and debugging sessions to maintain system stability.
- Supported testing and deployment of web applications using Git-based version control systems.

Education

Programming Languages: PHP, JavaScript

Backend Frameworks: Laravel

Frontend Frameworks: Vue.js, React

NoSQL Data stores: Cloud Firestore, MongoDB

SQL Data stores: MariaDB (SQL), PostgreSQL

Version Control: Git,

Containerization and Cloud: Amazon Web Services (AWS), Docker **API:** Restful APIs

Work Experience

Green Bank Credit, Nairobi, Kenya

October 2024- present

Full-stack Engineer
