Summary

Innovative and detail-oriented **Full Stack Web Developer** with over **3 years of experience** in designing, developing, and maintaining robust web and mobile applications. Highly skilled in **Laravel**, **Angular.js**, **Node.js**, and **API integrations**, with hands-on expertise in **cloud technologies (AWS, GCP)** and **containerization using Docker**. Adept at building scalable software solutions that enhance user experience, improve performance, and streamline business processes. Committed to continuous learning and keeping up to date with emerging technologies.

Technical Skills

- **Programming Languages:** PHP, JavaScript, TypeScript
- **Backend Frameworks:** Laravel, Node.js (Express)
- **Frontend Frameworks:** Angular.js, Vue.js, React
- **Database Management:** MySQL, Firebase, PostgreSQL, MongoDB
- **Version Control & CI/CD:** GitHub, GitLab, Jenkins, CI/CD pipelines
- **Cloud & Containerization:** AWS, Google Cloud Platform (GCP), Docker
- **Web Services:** RESTful APIs, SOAP, JSON, XML
- **Testing:** Unit and Automated Testing (PHPUnit, Jest)
- **UI/UX Design:** Responsive Web Design, Mobile Usability, Human-Computer Interaction

Education

KCA University, Nairobi, Kenya

May 2019 – Dec 2022

Bachelor of Science in Software Development

Professional Experience

Full Stack Web Developer — Galaxies Coders Limited, Nairobi, Kenya
July 2023 – Present

- Lead the design and development of full stack web and mobile applications using **Laravel**, **Node.js**, and **Angular.js**.
- Develop and maintain RESTful APIs to support both mobile and web platforms.
- Collaborate closely with clients and cross-functional teams to translate business requirements into efficient software solutions.
- Deploy and manage applications on **AWS** and **Docker** environments, ensuring system scalability and reliability.
- Implement **CI/CD pipelines** to automate testing, integration, and deployment processes.
- Optimize front-end and back-end performance, improving response times and system efficiency.
- Mentor junior developers and contribute to code reviews and architectural decisions.
-

Full Stack Software Developer— Green Bank Credit, Nairobi, Kenya
October 2024 – october2025

Full-stack Engineer Developing responsive and user-friendly websites, utilizing modern web development technologies to create seamless navigation and engaging user interfaces.

Software Developer intern — EarthView Management Ltd, Nairobi, Kenya
January 2023 – March 2023

• Assisting in Software Development: Contributed to building software solutions by collaborating with the development team on various projects. This involved writing clean, efficient code and participating in code reviews to enhance the overall quality of the software

• Testing and Debugging: Assisted in testing already developed applications to identify bugs and ensure they meet the required functionality. This included performing both manual and automated tests

Additional Skills

Languages: English (Fluent), Kiswahili (Fluent)

Activities(personal and Community involvements)

Volunteer, Tech Meet-ups and Conventions

- • Main duties in each event include speaker management, ticket sales and general roles at multiple conventions such as Google DevFest, PyconKE, etc.
